Roofing materials must be approved by the Committee and may include laminated asphalt shingles with minimum twenty-five (25) year manufacturer warranty or other roofing products approved by the Committee, such as Heritage 30 Presidential or Malarky Legacy. Exterior colors of

improvements on any Tract are subject to approval by the Committee; generally, and as a guideline for the Committee, earth tones and similar neutral/natural colors shall be acceptable.

6. ATTACHED GARAGES. All dwellings on any Tract shall have no less than a three (3) car attached garage.

7. LOCATION AND ORIENTATION OF IMPROVEMENTS/MINIMUM BUILDING SETBACKS. A site plan depicting the location and orientation of all proposed improvements must be submitted and approved by the Committee as provided for in Article IV hereinabove. The proposed location and orientation of improvements upon a particular Tract are important factors considered by the Committee taking into account, among other things, the topography of the particular Tract, the views, and the desire to maintain a maximum degree of symmetry, harmony, and balance among all improvements situated within the Record of Survey. Inasmuch as each Tract and the intention of each Owner for construction thereon presents a unique setting, each site-plan shall be evaluated and approved by the Committee on a case-by-case basis rather than attempting to specify detailed requirements for the location and orientation of improvements herein. As a general rule, however, the following minimum criteria shall apply subject to the case-by-case evaluation by the Committee during the approval process:

- a. With respect to proper orientation of a home upon a Tract, any home shall (unless otherwise approved by the Committee) be situated upon a Tract so that the front elevation of the home generally faces the road from which the home is accessed. There are several Tracts which may be accessed from alternative roads. In such cases, the home may face either road subject to approval from the Committee taking into consideration, among other things, the orientation of homes in close proximity and the intent to maintain a maximum degree of symmetry, harmony and balance among all improvements situated within the Subdivision. Additionally, the Committee may consider the topography of a Tract, which merits the orientation of a home in a manner other than described in this Section.
- b. With respect to the location of improvements upon a Tract, the following minimum setbacks shall be required in relation to front, rear and side property lines:
  - i. The minimum setbacks for the front of all Tracts shall be no less than seventy-five (75) feet;
  - ii. The minimum setbacks for the sides of all Tracts shall be no less than fifty (50) feet; and
  - iii. The minimum setbacks for the rear of all Tracts shall be no less than one hundred (100) feet.
- c. Variances on the setback requirements as set forth hereinabove may be granted by the Committee on a case-by-case basis.

- d. With the exception of fencing, in all cases the aforementioned setbacks shall pertain to any and all permanent improvements of any nature including, but not limited to, wells and septic systems.
  
- e. An Owner may combine two or more Tracts as a homesite subject to the following considerations: An Owner combining two or more Tracts as a homesite must carefully consider the placement and location of any home dwelling, outbuildings and/or barns to be constructed upon the combined tracts in light of the possible future separation and sale of the combined Tracts individually. In these regards, when selling individual Tracts that were previously combined, each Tract (when separated) is subject to the minimum setback requirements as set forth hereinabove. Furthermore, these covenants prohibit the erection of an outbuilding and/or barn prior to the construction of a residence (see Article V, Section 8 hereinafter). Similarly, an Owner who has combined two or more Tracts as a homesite and who has constructed a home dwelling on one of the Tracts and an outbuilding and/or barn on the other Tract, may not separate the Tracts for individual sale unless demonstrating to the satisfaction of the Committee that a residence shall also be timely constructed upon the Tract with the outbuilding and/or barn. The purpose of the preceding provision is intended to prohibit the use of an outbuilding and/or barn if the Owner does not also reside in a home dwelling upon the Tract. Notwithstanding anything hereinabove to the contrary, the interior lot lines of combined Tracts may be disregarded and the applicable setbacks shall be computed from the exterior lot lines of said combined parcel if the combined parcel is not, thereafter separated.

8. **OUTBUILDINGS/BARNES.** No more than one (1) outbuilding or barn shall be permitted on any Tract. Unless otherwise approved by the Committee in writing, the maximum size of any detached outbuilding shall be two thousand four hundred (2400) square feet and the maximum height of the sidewalls and/or eaves of any outbuilding shall be sixteen (16) feet. Unless otherwise approved by the Committee in writing outbuildings shall be in keeping with the architecture of the home.

The distance and location of an outbuilding in relation to the home and other improvements must be approved by the Committee, the intent being that the respective improvements must be appropriately integrated. As a general rule, outbuildings shall not be located in front of the front side of a residence (so as to obstruct the view of the residence from the Roads) unless approved by the Committee. Construction of any outbuilding shall not precede, but may be contemporaneous with, or subsequent to, the construction of the residence. In any event, no outbuilding may be utilized until the residence is complete and occupied.

Any plan for an outbuilding must be submitted to and approved by the Committee as provided for in Article IV herein. The Committee shall permit engineered pre-fabricated buildings subject to approval.

9. **OUTSIDE FLOOD/AREA LIGHTS.** Unless otherwise approved by the Committee as provided herein, the use of flood-lighting (halogen, helium and/or xenon) and/or automatic all-night flood/area lighting is not acceptable for use on any Tract. Upon written approval by the Committee, and on a case-by-case basis, down-lighting which is designed to shield and/or canopy to prevent the broadcast and/or disbursement of lighting to adjacent Tracts is permissible. All outdoor lighting fixtures shall be designed to shield to prevent the broadcast and/or disbursement of lighting to adjacent Tracts. This Section is not intended to otherwise prohibit other exterior lighting incidental and/or attached to homes, outbuildings and/or barns which are appropriately shielded and/or canopied.

10. **REBUILDING OR RESTORATION.** If any residence or other improvement is destroyed in whole or in part by fire, windstorm or some other cause, it must be rebuilt or all debris must be removed and the Tract restored to a sightly condition. Any such rebuilding or restoration must be commenced within three (3) months after the damage or destruction occurs and, thereafter, diligently pursued to completion within a reasonable time not to exceed one (1) year after the date the damage occurred unless a longer period is otherwise approved by the Committee due to unusual circumstances.

#### ARTICLE VI LANDSCAPING

1. **LANDSCAPING IN GENERAL.** In order to enhance each Tract and homesite and to promote a harmonious and integrated appearance among all Tracts, the following minimum landscaping standards shall apply:

a. The Owner of any Tract within the Subdivision shall be responsible for the installation and continued maintenance of landscaping upon such Tract in at least the minimum amounts set forth herein. Unless weather conditions prevent the completion of said landscaping requirements, installation of all required landscaping shall be completed within twelve (12) months after completion of construction of the primary residence. It is the intent of these covenants that landscaping be installed to enhance such Tract, the adjoining Tracts and the Subdivision; to provide drainage and erosion control and to achieve a harmonious and integrated appearance of such Tract with the adjoining Tracts and the Subdivision.

b. Within twelve (12) months after the completion of construction of the dwelling, each Tract Owner shall plant and maintain no less than five (5) trees of any variety which shall have the following minimum height requirements; any coniferous tree shall be no less than four (4') feet tall when planted and any deciduous tree shall be no less than eight (8') feet tall when planted. Nothing herein shall be construed to prohibit an Owner from planting any number of trees less than such minimum height requirements in addition to the required five (5) trees which meet these minimum height requirements. No unsightly shelter or wind protection for trees such as used tires or wood pallets shall be permitted. Any dead tree shall be removed from the Tract and, if necessary to meet the

minimum per-Tract tree requirement of five (5) trees as set forth above, shall be replaced with a tree of a height at least equal to the size of that required when originally planted.

c. In addition, landscaping and other improvements in general shall not be allowed in locations on Tracts where their presence may interfere with necessary safe distance visual requirements at road intersections or driveways.

d. No buildings, landscaping or other site improvements shall be allowed which may interfere with the natural or designed drainage patterns which exist through the Subdivision as a whole. Any proposed changes to the Subdivision's natural or designed drainage patterns must be shown on any Tract Owner's application for approval of construction and must include a complete written definition of all proposed drainage changes.

e. Rocks and gravel may be used as an adjunct to any landscaping scheme but shall not constitute the predominate ground cover.

f. Soil immediately surrounding a homesite, which has been disturbed during the construction phases, shall be re-seeded with a native turf mix or other grass of Owner's choice within one (1) year after the completion of construction of the primary residence. Any trees or shrubs removed due to roadways, residence, outbuildings or septic systems/wells shall be replaced by "like" species of comparable size within one (1) year of construction completion. Trees, shrubs, or other landscaping elements such as rocks, wood chips, bark and mulched or graveled materials are also acceptable. The seeding and/or sodding of grass yard (for purposes of a groomed lawn), particularly in front of the main elevation of a home, are encouraged although not specifically required. The use of drought-resistant and/or low-maintenance grass is encouraged for purposes of a groomed lawn. If an Owner chooses to seed and/or sod a yard, which necessitates sprinkler irrigation, the maximum size of any yard under irrigation shall not exceed ten thousand (10,000) square feet. Drip irrigation systems for trees and/or shrubbery are permitted without restriction. An additional irrigation well drilled to the first aquifer ONLY is recommended for yard irrigation.

g. Each Owner shall take all actions necessary to control noxious weeds, as defined by the Laramie County Weed and Pest Control Board and/or the Committee or Association. Because the timing for effective control of noxious weeds is critical, if an Owner fails to respond immediately to written request for weed control from the Committee, the Committee shall have the right to contract for such control services and the company so contracted shall have the right to enter upon an such Tract to treat noxious weeds without any liability for trespass. In the event that the Committee provides for noxious weed treatment as described herein, the Owner of a Tract treated for noxious weed control shall pay all costs relating to enforcement incurred by the Committee. Noxious weed treatment shall be strictly limited to herbicides approved by the Laramie County

Weed and Pest Control Board. Under no circumstance, however, shall materials or methods be utilized to control noxious weeds, which would endanger wildlife or sensitive wetland habitat on the property, or adjacent lands. Use of chemical herbicides and pesticides shall be prohibited, except for controlling noxious weeds. **Neither the Declarant, Developer, Association, Committee nor their representatives shall be liable for any claims, charges or damages of any nature whatsoever by reason of any action or inaction with respect to controlling noxious weeds upon any Tract pursuant to this Section.**

ARTICLE VII  
COMMON OPEN SPACE

1. COMMON OPEN SPACE. A total of 675.71 acres, more or less, of open space shall be part of the Final Plat for the Subdivision. Except as set forth herein, no further development or subdivision can occur on any of the 675.71 acres of open space at any time. Tracts 24, 53, 109, 149 and 184 of the Subdivision shall be the Common Open Space Tracts available for use of the Owners, their immediate family members, and their guests as set forth below. The initial design and layout for the Common Open Space shall be developed by Developer. Landscaping may be modified by the Association as is deemed necessary to accommodate the needs of the Owners.

2. MAINTENANCE. The cost of maintenance and operating of the Common Open Space shall be included in the annual assessments set forth in this Declaration, which shall include but not be limited to the application of weed control as needed.

3. RIGHT OF ACCESS. The Common Open Space area shall be accessible only to Tract Owners, their immediate families and their guests for Passive Recreational Uses, and to emergency vehicles and/or any such vehicles as are necessary to maintain the Common Open Space.

4. RESTRICTIVE USE OF THE COMMON OPEN SPACE. Prohibited uses of and actions on the Common Open Space by Tract Owners, their immediate families and their guests include, but are not limited to:

a. Planting trees, shrubs, etc. in the Common Open Space by any person other than the Board of Directors of the Association or a person acting under authority granted to them by the Board of Directors of the Association;

b. Locating, constructing or storing objects of any kind such as sheds, playhouses, fences, toys, vehicles, tools, garden equipment; etc. in the Common Open Space;

c. Injuring or scarring vegetation, promoting erosion, or interfering with wildlife use or riparian areas of the Common Open Space other than those actions deemed appropriate by the Board of Directors of the Association necessary for healthy management of the Open Space ecosystem;

- d. Dumping of any kind, including disposal of tree branches, brush, grass clippings, trash, yard waste, debris or pet waste in the Common Open Space;
- e. Overnight camping;
- f. Entering upon the Common Open Space with construction or delivery vehicles to access Tracts. In circumstances where no other alternatives for access exist and material damage will not occur, the Association may consider granting temporary access privileges to a Member. Monetary cost to Members is not a justifiable reason for access privileges to a Member or his or her agents upon the written request of the Member. The Member must agree to indemnify and hold the Association harmless from any resulting damage or injury. The Member is responsible for all personnel costs including arborists, engineers, consultants, and any and all costs incurred for restoration of the Common Open Space to its original condition, and may, at the discretion of the Association, be required to place a deposit with the Association to ensure compliance. This Section shall not be construed to prohibit access across the Common Open Space for maintenance and emergency vehicles;
- g. Use or operation of motorcycles, ATVS, and any other motorized vehicles or equipment or motorized model airplanes or model cars, EXCEPT MAINTENANCE AND EMERGENCY VEHICLES;
- h. Discharging firearms or fireworks from or onto the Common Open Space and lighting sparklers, pop bottle rockets or any other incendiary device;
- i. Igniting or causing any fire on the Common Open Space (fire pits, stoves or grates are not permitted), except in established picnic and/or recreational areas and/or cooking facilities built and maintained by the Association;
- j. Any activity or conduct that has any potential of damaging the Common Open Space, its plants or animals, its riparian or wetland areas or that may cause noise or disruption to Members;
- k. Discharging and/or use of any firearms within the Common Open Space including without limitation rifles, pistols, shotguns, pellet guns, B-B guns or any other device of like kind and/or nature;
- l. Hunting or harvesting of any animal of any kind, type or nature, from within the Common Open Space or as may cross through or over the Common Open Space; and/or
- m. Grazing of animals may be permitted upon approval of the Association.

5. OUTBUILDINGS. No shed, lean-to, canopy or other structure shall be constructed or permitted on the Common Open Space, other than any structures owned and built by the Board of Directors of the Association deemed necessary for management or enhancement of the Common Open Space ecosystem.

6. SIGNS. Except for signs installed by the Association at such places along the boundary of the Common Open Space that identify the Common Open Space and its exclusive use and control by the Association and its Members, no sign of any kind shall be permitted on the Common Open Space without Association approval.

7. PETS AND ANIMALS. Commonly accepted domestic pets may be permitted on the Common Open Space only when on a leash and/or under the control of a Tract Owner, a member of the Tract Owner's family or the invited guest of a Tract Owner.. All domestic pet waste must be collected and properly disposed of.

8. FENCING. No fencing of any sort beyond that exterior boundary fencing originally installed by Developer or fencing installed by the Board of Directors of the Association shall be permitted on the Common Open Space.

9. FIRE SUPPRESSION SYSTEMS. The Association shall maintain and manage two (2) fire suppression systems upon the Common Open Space, and shall replenish and supply water to any such fire suppression system within forty-eight (48) hours of use of any fire suppression system if such system was used in connection with fire within the Subdivision.

In the event that any person enters the Common Open Space without the authority granted herein, the Association may pursue all remedies available to any landowner under Wyoming law, including, but not limited to charges of and/or complaints of trespass, nuisance and damages. The prevailing party in any such action or proceeding provided above either to enjoin a violation or for the recovery of damages shall be entitled to recover without limitation reasonable attorneys' fees and costs of such action.

#### ARTICLE VIII ROADS

1. ROADS. As indicated on the plat of the Subdivision, the interior Roads within the Subdivision shall be publicly dedicated rights-of-way for the use of the general public, governments of the United States of America, the State of Wyoming, Laramie County, the City of Cheyenne and their respective divisions and departments and for the use by the Tract Owners of the Subdivision and their families, guests, and invitees. **NOTWITHSTANDING SUCH PUBLIC DEDICATION OF THE ROADS, THE MAINTENANCE AND IMPROVEMENTS OF THE ROADS, INCLUDING SNOW REMOVAL, IS NOT A PUBLIC RESPONSIBILITY, BUT SHALL BE BORNE BY THE ASSOCIATION AS SET FORTH HEREIN.**

2. INITIAL CONSTRUCTION and MAINTENANCE. All Roads shall initially be constructed, maintained and improved as needed or deemed necessary by Developer as gravel and paved roadways sufficient for vehicular traffic, with maintenance to include, without limitation,

grazing, blading, scraping, ditching, snow removal, sealing, striping, re-paving and re-graveling, as necessary, in the sole discretion of the Association.

3. CONTINUED MAINTENANCE. All Roads shall be maintained by the Association pursuant to this Declaration. All Tract Owners are required to be members of Association and all Tracts are encumbered by this Declaration. The Association shall assess all Tracts equally for the costs of insurance, maintenance and improvement of the Roads and shall have the power to impose and enforce liens against Tracts for such unpaid assessments. In addition, the Association shall procure and maintain such policies of insurance as it deems necessary to insure the maintenance and improvement activities of the Association for the Roads within the Subdivision.

4. REGULATION. The Declarant, Developer or Association shall have no obligation, responsibility and/or duty to police, enforce, control or take any other action pertaining to and/or concerning the use of the Roads nor shall the Association have any obligation to control or restrict such use other than to install and maintain such traffic regulations signs that may be required by governmental authorities. The Association shall only be required to maintain and improve the Roads in a reasonable manner as provided herein and at the sole discretion of the Association.

#### ARTICLE IX EASEMENTS

1. IN GENERAL. Easements for installation and maintenance of utilities and drainage facilities are hereby reserved in this Subdivision as shown on public record, together with the right of ingress and egress at any time for the purpose of construction and repair. Within these easements, no structure, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction of the flow of drainage channels in the easements, or which may obstruct or retard the flow of water through drainage channels in the easements. The easement areas of each Tract and all improvements on it shall not be construed to prevent an Owner from constructing a fence as provided elsewhere herein. In addition, each Owner shall allow the Association and its agents and employees access across and upon the Tract of the Owner for purposes consistent with this Declaration.

2. FIRE SUPPRESSION CISTERNS. Easements for the location and installation of two (2) fire suppression cisterns within the Subdivision, together with the right of ingress and egress thereto for access, installation, maintenance and any other use consistent with such cisterns, shall be reserved over, across and upon the Common Open Space and any other Tracts as necessary.

3. ROADS. All road easements within the Subdivision are for the use of the general public, governments of the United States of America, the State of Wyoming, Laramie County, the City of Cheyenne and their respective divisions and departments, Tract Owners and their guests, emergency and law enforcement vehicles, delivery vehicles, access in connection with the construction and service of the Improvements, utilities, construction contractors and subcontractors, service providers and any use required by law or as otherwise approved by the Association.

ARTICLE X  
ASSOCIATION ORGANIZATION AND BYLAWS

2. THE ROCKING STAR RANCH ASSOCIATION. The ownership of any Tract subject to this Declaration shall impose and confer upon any such Owner the obligations and benefits of membership in the Rocking Star Ranch Association, Inc., a Wyoming non-profit corporation (the "Association"), organized by Declarant for the administration and enforcement of this Declaration.

The Association shall, without limitation, enforce this Declaration; appoint members to the Committee; own, maintain, manage and insure certain real and personal property assets in, on and appurtenant to the Common Open Space and the Roads, including fire suppression systems, mowers and other similar machinery, fencing, parking areas, culverts, bridges, signs, gates, common trash disposal areas, walkways, paths and shrubs; control growth of the Common Open Space; assess its members for the costs of its management and operations, including, without limitation, insurance, other governmental assessments, and the costs of management, maintenance and improvement of the Common Open Space and the Roads; provide an organizational entity for other activities of the Tract Owners and promote the common interests of its members as the same relate to the Common Open Space and the Roads. The administration of the Association shall be in accordance with the provisions of this Declaration, the Articles of Incorporation and with the By-Laws of the Association. The assessments to be imposed upon the Tract Owners shall be determined by the Association, but shall not exceed an individual Tract Owner's proportionate share of the operational expenses of the Association including, without limitation, the costs of maintenance and improvement of the Common Open Space, the Improvements and the interior Roads.

The Association shall define criteria for and assume all responsibilities and obligations of maintenance and improvement of the Common Open Space, the Improvements and the interior Roads, gates, common fencing and security issues, along with necessary assessments, and shall pay for the costs thereof, including premiums for insurance coverages incidental to the maintenance and improvement activities of the Association on such Common Open Space and Roads, pay all annual fees of a nonprofit corporation to the Wyoming Secretary of State, file tax returns, assess Tract Owners proportionately for all such costs and enforce this Declaration. All criteria shall be consistent with any standards or criteria set forth in this Declaration.

The Association shall grant to any Tract Owner or each first mortgagee of any Tract the right to examine the books and records of the Association at any reasonable time.

3. MEMBERSHIP AND VOTING RIGHTS IN ASSOCIATION. Each Tract Owner, including the Developer, shall be a Member of the Association. Membership shall be appurtenant to, and may not be separated from, Ownership of any Tract which is subject to assessment and this Declaration.

4. CLASSES OF MEMBERSHIP. The Association shall have two classes of voting membership:

CLASS A

Class A Members shall be all Owners with the exception of the Developer and shall be entitled to one vote for each Tract owned. Each Member shall be entitled to one (1) vote for each Tract owned. If a Tract is owned by more than one person, all such persons shall be Members. The single vote for each Tract shall be exercised as the Owners of such Tract determine among them; in no event shall more than one (1) vote be cast with respect to any Tract, and no vote shall be registered unless the co-Owners unanimously consent thereto. If an Owner owns more than one Tract, such Owner shall be entitled to one (1) vote for each Tract owned.

CLASS B

The Class B Member shall be the Developer, its successors and assigns. The initial Board of Directors of the Association shall be elected by the Class B Member, and thereafter in accordance with the By-Laws of the Association. The Class B Member shall have as many votes on other matters as there are Tracts in Rocking Star Ranch, regardless of ownership of the Tracts. The Class B membership shall cease and all voting rights shall revert proportionately to the Class A Members on the happening of either of the following events, whichever occurs earlier:

- (a) Upon termination of the Developer Control Period; or
- (b) On or before July 1, 2015.

5. TRANSFER. Except as otherwise expressly stated herein, any of the rights, interest and obligations of the Association set forth herein or reserved herein may be transferred or assigned to any other person or entity; provided, however, that no such transfer or assignment shall relieve the Association of any of the obligations set forth herein. Any such transfer or assignment shall not revoke or change any of the rights or obligations of any Owners as set forth herein.

6. SUSPENSION OF VOTING RIGHTS. No Class A Member shall have any voting rights while such Class A Member shall be delinquent in the payment of any assessment established by the Association pursuant hereto.

7. BYLAWS. Each Owner agrees to abide by the By-Laws of the Association as the same may be amended from time to time. In the event of conflict between the provisions of the By-Laws and the provisions of this Declaration, the provisions of this Declaration shall prevail. To the extent permitted by law, violations of the By-Laws shall be in violation hereof and actions for compliance shall be enforceable in the same fashion as actions brought for compliance with this Declaration. The Board of Directors of the Association shall provide copies of the By-Laws to each Owner upon request.

8. RULES AND REGULATIONS. The Association may make and adopt reasonable rules and regulations and bylaws governing operating of the Association and the use of the Tracts which shall be consistent with all provisions of this Declaration. The Association may suspend any Owner's voting rights in the Association if such Owner fails to comply with

such rules and regulations, the By-Laws, payment of assessments or with any other obligations of such Owner under this Declaration or as established by the Association.

9. LITIGATION. The Association may also take litigative action against any Owner to enforce compliance with such rules and regulations, the By-Laws or other obligations or to obtain damages for noncompliance. Such damages shall include payment of the Association's attorneys' fees in the event that the Association prevails in such an action.

## ARTICLE XI ASSESSMENTS

1. IN GENERAL. The Association shall have the power to levy assessments, and each Tract Owner (other than Developer, except as specifically set forth in Section 2 below) by acceptance of a deed to Tract hereby agrees to pay to the Association: (a) the annual assessments levied by the Association, and (b) such special assessments which may be levied by the Association as hereinafter provided. The annual assessments and special assessments may be used to pay the Association Expenses, including all costs, fees and charges incurred by the Association in carrying out its powers, duties, obligations and authority, including but not limited to insurance, other governmental assessments, costs of management and maintenance of the Common Open Space and the Roads, costs of correcting any breach of covenant, costs of prosecuting or defending any civil action relating to this Declaration, a breach of covenant or the enforcement thereof, or relating to the indemnification of the directors and officers of the Association therefor and including but not limited to reasonable attorneys' fees and court costs. The omission or failure of the Association to levy the Assessments for any period shall not be deemed a waiver, modification or release of the Owners for their obligation to pay the annual or special assessments levied by the Association as hereinafter provided.

2. DECLARANT/DEVELOPER. Declarant and/or Developer shall have no obligation to pay annual or special assessments provided for herein upon the Tracts which it owns. In lieu of Declarant and/or Developer paying any annual or special assessments, Declarant and/or Developer shall make a one time contribution toward Association reserves as an initial working capital fund of Five Hundred dollars (\$500.00) per Residential Tract at the time of closing on the sale of such Residential Tract to a third-party purchaser. The initial working capital account of the Association shall be established with the one-time contribution by the Declarant and/or Developer pursuant to this Section, and annual assessments shall commence as set forth in Section 3 below upon conveyance of the first Tract by Declarant and/or Developer to a third-party purchaser. The working capital fund may be maintained by the Association in a segregated account. Thereafter, determination of the due dates and amounts of assessments shall be made on at least an annual basis at a regular meeting of the Association as set forth in Section 3 below.

3. ANNUAL ASSESSMENTS. Initially, the annual assessments shall be in the amount of Five Hundred Ten dollars (\$510.00) per Residential Tract, or Forty-two dollars and fifty cents (\$42.50) per month. The Board of Directors shall thereafter annually establish a budget setting forth the estimate by the Board of Directors of the Association Expenses for the current year. An annual assessment shall not exceed the estimate of the Association Expenses

for the current year, together with a reasonable addition to the reserves of the Association which may be required to pay future Association Expenses. Each Owner (other than Declarant and/or Developer) shall be responsible for and shall pay, for each Tract such Owner owns, that portion of the annual assessment equal to the total annual budget divided by the number of Tracts within the Subdivision, exclusive of any Tracts owned by the Declarant and/or Developer. Annual assessments shall be payable in monthly installments on a prorated basis in advance and shall be due on the first day of each month, or as otherwise established by the Association. The Association shall have the right, but not the obligation, to make prorated refunds of any annual assessments in excess of the actual expenses incurred in any fiscal year. Individual assessment notices shall be sent to each Member and shall itemize each estimated cost calculated as Association Expenses for the current year and the Member's proportionate share of such total cost amount.

4. SPECIAL ASSESSMENTS. The Association shall have the right, by action of its Board of Directors, from time to time, to levy special assessments to pay any Association Expense which is extraordinary and nonrecurring. Each Owner (other than Declarant and/or Developer) shall be responsible for and shall pay, for each Tract such Owner owns, that portion of the special assessment equal to the total special assessment divided by the number of Tracts within the Subdivision, exclusive of any Tracts owned by the Declarant and/or Developer, subject to the right of the Association to assess only against the Owners of affected Tracts any extraordinary maintenance, repair or restoration work with respect to fewer than all of the Tracts. This Section shall not be construed as an independent source of authority for the Association to incur expense, but shall be construed to prescribe the manner of assessing expenses authorized by other sections of this Declaration. Notice in writing of the amount of special assessments levied under this Section 4 shall be given promptly to the Owners, and no payment shall be due less than ten (10) days after such notice shall have been given.

5. DELINQUENT ASSESSMENTS. Delinquent assessments shall bear interest at such interest rates as are from time to time established by the Association (which interest shall not exceed the maximum legal interest rate allowed to be charged to an individual under the laws of the State of Wyoming then in effect). The Association shall have the right to establish a late charge for delinquent payments in addition to interest charges.

6. ABANDONMENT; WAIVER. No Class A Member may exempt himself from liability for his contribution toward the expenses of the Association and the Association by abandonment of such Class A Member's Tract, or waiver of the use or enjoyment of any of the common property (e.g., Common Open Space, Improvements, Roads), by the abandonment, sale or other disposition of his Tract, or by reason of any grievance against the Association, Declarant, Developer, builder, or any other Class A Member.

7. LIEN OF ASSOCIATION. The Association shall have a lien upon the estate or interest in any Tract and the improvements thereon for the payment of the assessments chargeable against such Tract which remain unpaid for ninety (90) days after the same have become due and payable, together with any interest, late charges, costs and reasonable attorneys fees. The lien shall take effect and relate back to the date of recording this Declaration. A certificate evidencing the lien, signed by an authorized officer of the Association, may be filed with the County Clerk, Laramie County,

Wyoming, pursuant to the authority given by the Board of Directors. Such certificate shall contain a description of the Tract and the name or names of the record Owner or Owners thereof and the amount of such unpaid portion of the assessments. Such statement of lien shall remain valid for a period of five (5) years from the time of filing thereof, unless sooner released or satisfied in the manner provided by law for the release and satisfaction of mortgages on real property or discharged by the final judgment or order of the court in an action brought to discharge such lien as hereinafter provided. In addition, the Owner of the Tract shall be personally liable for the assessments chargeable to the Tract for the period of such Owner's ownership of the Tract. No portion of the land which does not consist of a Tract shall be subject to a lien for Association assessment.

8. **PRIORITY OF ASSESSMENT LIENS.** The lien provided for in Section 7 above for Association assessments shall take priority over any lien or encumbrance subsequently arising or created, except liens for real estate taxes and assessments, and such lien may be foreclosed in the same manner as a mortgage on real property in an action brought by the Association or by an authorized officer of the Association pursuant to the authority given to such officer by the Board of Directors. In any such foreclosure action, the Owner or Owners of the Tract shall be required to pay a reasonable rental for the Tract during the pendency of such action, and the plaintiff in such action shall be entitled to the appointment of a receiver to collect the same. In any such foreclosure action the Association, or its agent, duly authorized by action of the Board of Directors shall be entitled to become a purchaser at the foreclosure sale.

9. **DISPUTES AS TO ASSESSMENTS.** Any Owner who believes that the portion of Association assessments levied with respect to such Owner's Tract, for which a certificate of lien has been filed by the Association, has been improperly charged against such Tract may bring an action in the District Court in and for Laramie County, Wyoming, for declaring judgment as to such impropriety and for the discharge of such lien. In any such action, if it is finally determined that such portion of the Association assessment has been improperly charged, the Court shall make such order as is just, which may provide for a discharge of record of all or a portion of such lien.

10. **NON-LIABILITY FOR PAST DUE ASSESSMENTS.** If the holder of a first mortgage of record or other purchaser of a Tract acquires title to the Tract as a result of foreclosure of the first mortgage, or if the mortgagee accepts a deed in lieu of foreclosure, then such acquirer of title, its successors and assigns, shall not be liable for the share of the Association assessments levied with respect to such Tract which became due prior to the acquisition of title to same by such acquirer.

11. **LIABILITY UPON VOLUNTARY CONVEYANCE.** In a voluntary conveyance of a Tract, the grantee of the Tract shall be jointly and severally liable with the grantor thereof for all unpaid Association assessments levied with respect to the Tract up to the time of the grant or conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee therefor. However, any such grantee shall be entitled to a statement from the Board of Directors setting forth the amount of all unpaid Association assessments levied with respect to the Tract, including interest and late charges, and such grantee shall not be liable for nor shall the Tract conveyed be subject to a lien for any unpaid Association assessments in excess of the amount set forth in such statement for the period reflected in such statement. As

used in this Section "grantor" shall include a decedent and "grantee" shall include a devisee or intestate heir of said decedent.

12. RIGHTS OF FIRST MORTGAGEES. Any first mortgagee of any Tract shall have the right to notify the Association in writing that such mortgagee desires to receive notice from the Association of any delinquency in the payment of the Owner of a Tract which is encumbered by the mortgage held by that mortgagee and upon such written request, the Association shall notify the first mortgagee if and to the extent that such Owner is more than ninety (90) days delinquent in the payment of Association assessments.

13. DISPROPORTIONATE ASSESSMENTS. Should any assessment be necessitated by virtue of the activities of a single Owner or group of Owners, whether through negligence or intentional disregard of the requirements of this Declaration, such assessment may be levied disproportionately against such Owner or Owners in proportion to the degree of responsibility such Owner or Owners bear to the expense necessitating such assessment as the directors in their discretion may be determine.

14. CESSATION OF SERVICE FOR DELINQUENCY. No Owner who shall be delinquent in the payment of any assessment shall be entitled to services provided by the Association, and the Directors of the Association may withhold maintenance or other services from such delinquent Owner to the extent it shall not damage any other Owner of a Tract.

## ARTICLE XII ENFORCEMENT PROVISIONS

1. ENFORCEMENT. These covenants, conditions and restrictions may be enforced by any legal or equitable Tract Owner(s), the Association, or the Declarant and its successor and assigns, by appropriate proceedings at law or in equity against those persons violating or attempting to violate, or for restraining a future violation of these covenants, for recovery of damages for any violation, or for such other and further relief as may be available. The Association is charged with the option and is authorized, acting by and through its Board of Directors, to take appropriate action in any situation where usage or conduct is clearly inconsistent with the stated intent of this Declaration, the By-Laws of the Association or any properly adopted resolution of the Association of which the Members have notice. The failure to enforce or cause the abatement of any violation of these covenants shall not preclude or prevent the enforcement thereof of a further or continued violation, whether said violation shall be the same or a different provision within these covenants.

Although it is a right, it is neither the obligation nor the responsibility of the Association, the Declarant, or the Developer to prosecute violations of these covenants on behalf of any Owner(s). Under no circumstances shall a Tract Owner bring any claim, demand or action against the Association, the Declarant or the Developer relating in any way to a violation of the covenants by another Tract Owner.

2. ATTORNEYS' FEES. If any legal action or any arbitration or other proceeding is brought (whether brought by the Association or by any Member, and specifically including any action brought by any Member or Members against the Association) for the enforcement of this Declaration, the By-laws, or such rules and regulations as may be adopted by the Association, or because of any alleged dispute, breach, default, misrepresentation or any other legal issue in general or in connection with any of the provisions of this Declaration, the By-laws, or such rules and regulations as may be adopted by the Association, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees and other costs incurred in that action or proceeding, in addition to any other relief to which it or they may be entitled.
